

## Angela Kipf

***Impact & Quality Manager, EU GREEN European University Alliance, Otto von Guericke University Magdeburg, Germany***

Angela Kipf is a Quality Impact Manager at the EU GREEN European University Alliance, working with universities and stakeholders across Europe to embed sustainability in education, research, innovation, and societal engagement. She leads the implementation of impact-related activities within the alliance, with a strong focus on tracking progress, assessing impact, creating visibility for impact, and ensuring meaningful contributions to the Sustainable Development Goals (SDGs) and regional development. EU GREEN is committed to fostering transformative change in higher education by integrating sustainability as a guiding principle. In this context, Angela plays a key role in impact assessment, prioritizing measurable outcomes for the alliance's target groups, developing an annual SDG impact report, and initiating the EU GREEN impact strategy and ambassadors' program. Prior to joining EU GREEN, she conducted research on cooperation and organizational change, as well as quantitative research on top management diversity. She has extensive experience working with international PhD students and initiatives supporting international students. Her work is driven by a strong commitment to fostering student diversity and access, future skills and education for sustainability, and promoting inclusive academic environments. She holds a degree in Human Resource Development & Vocational Education Management and International Management.
